

January 14<sup>th</sup>, 2010

This is a letter of recommendation on behalf of First Law International.

We have been very pleased with the level of service we have received from FLI. Ours is a mid-size life sciences Austrian Company experiencing a robust growth spurt in our market. In order to meet our expansion requirements we have been relying on FLI's management from its HQ in Brussels supported by its partner offices in the Czech Republic, Hungary, Germany, Norway and most recently the United Kingdom.

We have been very impressed with FLI's business approach to rendering legal services. Their understanding of international law and its application to our way of thinking and doing business in Europe has been a real asset. We intend to continue to use them in the future as we expand into other markets. We recommend FLI without reservation.

Yours truly,

Werner Trenker  
MED TRUST CEO
