To Whom It May Concern:

I would like to take this opportunity to recommend First Law International ("FLI").

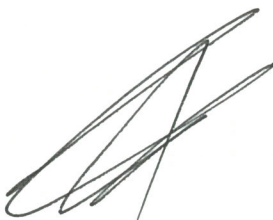

We were introduced to FLI by our local French counsel, Lamy-Lexel, a member of FLI's Board during the FLI's annual spring conference in Lyon in 2011.

We have been working with FLI ever since and find their business model very responsive to our needs and requirements.

As a multinational European company in a very competitive market, we need to rely on cross-border support in a very timely and efficient manner. Our Intellectual Property Rights are very important to Vignal and our company will defend our good name and reputation all over the world.

In this regard, knowing that FLI has partner offices everywhere we do business is of great value since we can have all our issues centrally managed by FLI HQ in Brussels. In turn, FLI maintain good contact with the individual firms, hosts a number of partner-client annual global and regional events and provides us with timely reports and consolidated billing which is an advantage.

We intend to continue to work with FLI and are pleased to recommend them without hesitation.

A handwritten signature in black ink, appearing to read "Pascal Michallet", is written over a light blue horizontal line.
